Problem

Specialized engineering services are being imported from HIGH COST COUNTRIES so the time response in deliveries increase quality risk, production cost and reduce profit and quality rate.

AIDMASTER ENGINEERING®
de México S.A. de C.V.

Results Oriented Engineering

Market Size

26.5 BUSD (Mexico 2018 Service Market)

350 local industries in Juarez related to plastics technology in medical, automotive, electronic and general industry.

AIDMASTER ENGINEERING®
de México S.A. de C.V.

Results Oriented Engineering

Solution

Local and results oriented engineering specialized services at best cost to reduce the time response in deliveries, production cost and improve quality rate, efficiency, customer satisfaction and profit

Market Assessment

AIDMASTER ENGINEERING®
de México S.A. de C.V.

Results Oriented Engineering

- Low OEE (PR,QR & AR)
- Long Time Response for Service
- Customer Compliances
- No post sales service
- Manual Production Sorting

AIDMASTER ENGINEERING
de México S.A. de C.V.

Results Oriented Engineering

Specialized
Engineering services
for:

Plastics Technology

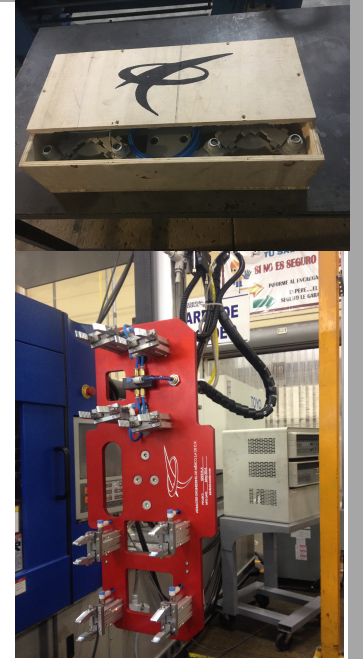

- Professional Training
- Mold Validation Methodology
- Mold & EOAT Design / Fabrication
- OEE Improvement

Automation & Intelligent Control

- 4.0 Automatics Inspection, Assembly and/or test
- Machine Qualification Methodology

Mechanical Design

- Complete Assembly Line Design
- SMED & Error Proofing Implementations

Business Model

Direct Specialized Engineering Services Sells for:

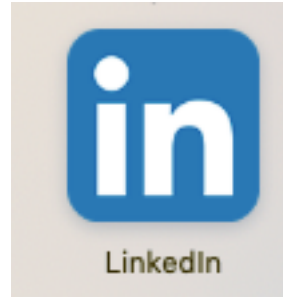

- Training, Consultant Services, Programing
- EOAT, Assembly & Test Machines Design
- Mold Repair, Design & Fabrication
- Process & Quality Improvement and Engineering
- M&E, robots, Vision Systems

AIDMASTER ENGINEERING®
de México S.A. de C.V.

Results Oriented Engineering

Market Adoption

COMPETITIVE ADVANTAGES

AIDMASTER ENGINEERING®
de México S.A. de C.V.

Results Oriented Engineering

- Protected Design Methodology
- Protected Machine Qualification Methodology
- **Mold Flow /Inventor- Certificated Company**
- Quality Engineering Methodology
- Robust Engineering Design
- Design Assistance

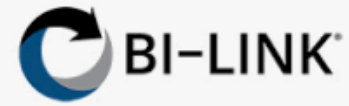

ABOUT US:

We are a Specialized Engineering Services Company for:

- Plastics Technology
- Automation & Intelligent Control
- Mechanical Design

Our personal holds more than 25 years experience on their field.

Customers

AN AVXX GROUP COMPANY

EXPERIENCE & WARANTY

AIDMASTER ENGINEERING®
de México S.A. de C.V.

Results Oriented Engineering

- Safety First
- On Time Deliveries
- Lessons Learned & Continuous improvement
- Quality & Applied Technology
- Customers Feedback
- Injection Molding Trainer Company
- DUNS Worldwide Registered Company

Customer Benefits

- Professional Service & Support
- Engineering Methodology
- Local Tech Support
- Certifications & Legal Usage of Software
- Design Assistance
- Post Sales Service
